INDO-CHINA MEETING.

Protests Against Trade Interference.

BETTER PROSPECTS FOR COMPANY.

Spirited protests were made by the Chairman at the forty-third ordinary general meeting of the Indo-China Steam Navigation Co., Ltd., held this morning at the offices of Messrs. Jardine, Matheson and Company, in regard to the illegal taxation of commerce in China, the piracy in South China waters and the dangers to shipping caused by indiscriminate firing by Chinese troops on the banks of the Yangtze. Regarding the future prospects of the Company, it was announced that agreements entailing years of negotiation had been definitely concluded and others were in process of discussion, there being hopes of better times in store for the Company.

Mr. D. G. M. Barnard presided and there were also present Mr. C. Gordon Mackie (Director), Mr. E. F. Aucott, the Hon. Mr. A. R. Lowe, Messrs. J. P. Wright, N. L. H. Raiton, K. C. Hall, A. B. Stewart, E. B. C. Hornell, Ho Loung, P. Tod, Lo Cheung-shiu, D. McMurray, A. M. de Silva, W. B. Cornaby, R. Macdonald, Lo Man-hin, Ho Shat-kei, Ho Tang-yang and W. Galloway (shareholders).

CHAIRMAN'S SPEECH.

Mr. E. F. Aucott having read the notice convening the meeting, the Chairman said:—Gentlemen.—The report and statement of accounts having been in your hands for some days, I will, with your permission, follow the usual procedure and take them as read. It will be observed from the Company's report that there has been little improvement in the general conditions affecting China's coasting and riverine trades, and it is a disappointment again to be unable to record the much-needed, and greatly-to-be-desired, settlement of China's political problems. Our experience in the year now under review has been a repetition of what happened in 1922, and with little exception the same factors governed the Company's earnings power. It is quite impossible, in the scope of these remarks, to convey an adequate impression of the difficulties continually confronting local shipping companies in the conduct of their business; but I think the worldwide publicity given to the chaotic state of China will keep those who have interests in the Far East in touch with what is taking place.

TAXATION AND PIRACY.

The essential domestic requirements of the nation have had to be transported by "hook or by crook," and this, unfortunately, has entailed the condemnation by merchants of great irregularities on the part of military leaders, who would seem to impose taxations on the flow of commerce wherever and apparently whenever they see fit. These conditions exist more particularly on the Upper Yangtze and in the neighbourhood of the Canton Delta. Added to the drawbacks of military interference, an additional and increasing menace to peaceful trading and water transport has developed to a very alarming extent in the form of piracy in Southern Chinese waters. To what extent the state of affairs referred to has contributed to the poor working results shown in our accounts is difficult to say, the more so perhaps because the considerations mentioned last year with regard to holding on to our pivotal trades at all costs remain unaltered. I may say that the acquisition of expensive ships soon after the close of the war was necessary in important trades, and, in furtherance of this policy, it is probable that more tonnage will have to be acquired at an early date for the Company's main services.

BETTER TIMES IN STORE.

There are very distinct and welcome signs that our policy of meeting trade competitors, involving as it has a heavy monetary sacrifice, has now commenced to bear fruit, and since we met last year, agreements, which in some cases have entailed years of negotiation, have been definitely concluded,

whilst others are in process of discussion. That the arrangements come to so far will prove of important financial benefit to the Company is already shown in the working results during the concluding months of the year, and unless some unknown factor disturbs the settlements already come to, and in view, I think I may say that better times are in store for us.

The year now being reviewed was, so far as shipping interests are concerned, perhaps the worst the world has ever known; but it affords some comfort to know that, notwithstanding the loss in operating the fleet, we have been able to maintain our organization at a satisfactory standard of efficiency, and are in a position to take the fullest advantage of that period of prosperity which past experiences show usually follows lean years.

FLEET CASUALTIES.

Brief reference is made in the report to the casualties suffered by the fleet. The loss of the "Loongang" in August last was a lamentable disaster, accompanied, unfortunately, with serious loss of life, both foreign and native, and I wish to take this opportunity of expressing on behalf of the Company our deep sympathy with the relatives of those who lost their lives in such circumstances. The Company granted Compassionate Allowances where circumstances demanded, and I feel sure that this will have your fullest approval. The stranding of the "Kumsang" on Northern Luzon was a most unfortunate accident, but one, happily, not accompanied by loss of life. The vessel was promptly salvaged, but the extensive nature of bottom damage was such that the age of the steamer did not warrant the expense of repairing her, and she was consequently sold.

YANGTZE DANGERS.

Mention has been made from time to time of important developments in the Upper Yangtze trade, and during last year our representatives at Hankow, Ichang, and Chungking have had a difficult and anxious task in controlling a service which was beset with many and varying difficulties, the most pronounced perhaps being the continued and unjustifiable interference to trade by irresponsible military factions. This grave menace, not only to British trade, but to the lives of the personnel of steamers employed, has been frequently and fully represented to the proper authorities, and it is hoped some firm and efficient steps will be taken to remedy a state of affairs which cannot but seriously impair British prestige in China; and it would not be over-stating the case to say that those on board vessels running under present conditions are obliged continually to risk their lives in the performance of their duty, a risk not only of dangers of navigation but of death or injury through the indiscriminate firing of Chinese troops on the banks of the river.

COMPANY TONNAGE.

Turning to the question of tonnage, the two vessels built for the Manila Line, viz. "Suisang" and "Yuensang," have now replaced the old "Yuensang," which was sold, and the "Loongang," already referred to. The existing conditions and future prospects of this Line are receiving very

careful consideration in view of the surplus tonnage operating on the route, especially the vessels of the United States Emergency Fleet Corporation, which have become active competitors in the local carrying trade.

To replace the "Koonshing," lost in October, 1922, a contract was entered into, on favourable terms, with the Hongkong and Whampoa Dock Coy., for the construction of a thoroughly up-to-date vessel for the Shanghai-Tientsin Line. The vessel in question, the "Lionsing," recently launched, will be in commission this month, and should be in every respect suitable for the requirements of the Line.

The urgent need of a light draught vessel for the Ichang-Chungking Line, especially for the winter service, was met by the purchase, on the stocks at Shanghai, of a most suitable steamer designed for this particular trade. She has been named "Kingwo," and is being found satisfactory in every way. Whilst on this subject I would say that we do not yet seem to be at the end of our troubles with our Ichang-Chungking steamer "Tuhwo," and her repeated breakdowns have been a source of great disappointment. I am glad to be able to state, however, that her builders have now sent a special representative from Home, who is at present at Shanghai, investigating the cause of the unsatisfactory service so far performed.

Our vessels have been maintained at their usual good standard of up-keep, and the thanks of the Company are due to the staff, both afloat and ashore, who have performed loyal and valuable service.

CHARITABLE DONATIONS.

Closely associated as we are with some of the premier shipping companies of Japan, it is only fitting that I should refer to the terrible hardships suffered by the Japanese people in the earthquake of September last, and in doing so, tender our sympathy to the sufferers; and also express the hope that, with their characteristic resource and energy, our neighbours will soon be able to restore normal conditions of living and commerce. Our company fortunately did not suffer as a result of the earthquake, and we were able to make the "Namsang" available on special terms, to assist in the Relief Work. In response to charitable calls, the Company has subscribed \$10,000 to the Hongkong War Memorial Nursing Home; \$15,000 to the Plant Memorial Fund (Capt. Plant, who recently died, was as you are aware, one of the pioneer navigators of the Upper Yangtze); and \$2,000 to Wuhu General Hospital, which contributions, I trust, will meet with your approval.

THE YEAR'S LOSS.

Turning to the statement of accounts, it will be seen that the loss on the working of steamers amounted to £136,271 13s. 10d., which is, however, £198,332 10s. 11d. less than in the previous year. There was a substantial improvement in earnings during the closing months of the year, which it is hoped will be maintained. The sum of £185,000 has been transferred from Contingency Account to Revenue Account, to which latter Account has also been credited £60,000 from Investment Fluctuation Reserve. This latter amount is in respect of profits on investments which had previously been written up to their market value and have since been sold. During the year, securities have been disposed of to meet the cost of new tonnage and current expenses.

The Building Reserve Account has been increased by the sum of £40,662 6s. 0d., representing the amounts received from Underwriters in respect of the loss of the s.s. "Loongang" and the difference between the book value and the sale price of the s.s. "Yuensang" and s.s. "Kumsang."

Economies in running the fleet, consistent with efficiency, have been adopted wherever and whenever possible, and if further reductions can be effected in the heavier items of overhead charges, your directors, who are

FORMER TRAFFIC INSPECTOR.

DEATH OF MR. H. G. GARROD.

As we go to press, news reaches us of the death of Mr. H. G. Garrod, formerly Traffic Inspector of the Hongkong Police, which occurred, after a long and painful illness at Fortsmith on Sunday. The deceased, who was 46 years of age, came to the Colony in 1898 as a police constable and served continuously with the force until last June. He became an Inspector in 1914, and for several years prior to his departure was in charge of the Traffic Department. He was of an extremely cheerful disposition and his death will be heard of with the utmost regret.

DAY BY DAY.

The Weekly Wednesday Public Meeting of the Hongkong Lodge of the Theosophical Society will be held on Wednesday, May, 7th, at 5.45 p.m., at the Lodge, 16, Queen's Rd. Central. Speaker: Mr. M. Manuk. All are welcome. Adv.

There was removed to the Kwong Wah Hospital yesterday a stonebreaker who was injured in an accident occurring when a rock became dislodged and rolled over him. He was found to be badly injured when extricated, and is in a critical condition. The accident occurred at Tai Kok Tsui.

STOP PRESS.

SHANGHAI DERBY.

(Our Own Correspondent.)

Shanghai, May 6.
The Shanghai Derby resulted as follows:—

- Mr. Day's New Zealand (Mr. A. N. Dallas) 1
- Mr. Harry White's Doa Alfonso (Mr. Patterson) 2
- Mr. Day's Theatroland (Mr. W. Hill) 3

giving the matter their careful consideration, will give effect thereto. I do not think there is anything more in the accounts calling for special comment, and I therefore beg to propose the following resolution:—That the report and statement of accounts, as presented, be adopted and that a dividend of 6 per cent on the Cumulative Preferred Ordinary Shares be paid, also that the amount of £1,179 8s. 9d. be carried forward to next year. The Dividend on the Shares on the Hongkong Register to be paid at Exchange 2/4 1/2. As soon as this has been seconded, I shall be glad to answer to the best of my ability any questions which shareholders may wish to ask.

The adoption of the report and accounts was seconded by Mr. Mackie and agreed to without discussion.

BUSINESS MATTERS.

On the proposition of Mr. Hornell, seconded by Mr. Ho Loung, the appointment of Mr. G. W. Barton as a Director from May 31st, 1923, was confirmed.

It was proposed by Mr. A. B. Stewart and second by Mr. Lo Cheung-shiu, that Sir Paul Chater and Mr. H. P. White be re-elected directors for the ensuing year. This was unanimously agreed to.

On the proposition of Mr. Galloway, seconded by Mr. Hall, the Hon. Mr. A. R. Lowe and Mr. John Fleming, were re-elected auditors for the year 1924, at a remuneration of \$5,000.

This was all the business the Chairman announced that dividend warrants would be ready to-morrow.

THE WATER SUPPLY.

FURTHER RESTRICTIONS TO-MORROW.

THE POSITION EXPLAINED.

In connection with the announcement made on Saturday last that the rider main system was being applied in the Western District of the city on Sunday, and in connection with the announcement made to-day that all the rider main services will be brought into operation to-morrow, a Telegraph representative has been making enquiries into the state of the Colony's water supply and is informed that the rate of consumption has increased tremendously during the past few weeks. This is undoubtedly due to a much larger population than is officially recognised and also the advent of the warmer weather. For the best part of the winter, the daily consumption has averaged about 8 1/2 million gallons, but during the week before last the daily consumption jumped up to over the 9 million gallon mark—a figure never attained before.

POKFULUM VERY LOW.

So far as the western district is concerned, the rider mains had to be brought into operation earlier than the others owing to the Pokfulum reservoir falling to such a low level that it was impracticable to continue drawing on it. The western district is practically dependent on the Pokfulum supply, though it is also served by Taitam after the requirements of the eastern and central districts have been taken out of the conduit. These two last-named districts are now requiring so much water daily that there is not enough left over to pass through to the west and keep a full service of water on in all districts. The rider mains have, therefore, been brought into operation again and will continue in use until such time as the rainfall has been sufficient to bring the Pokfulum reservoir into full working supply.

TAITAM TUK WELL SUPPLIED.

The amount of water in storage on the island is larger than at this time last year. On Monday there were 977 million gallons in Taitam Tuk—well over 100 days' supply even if the full service could be kept going. When the new eastern service reservoirs above Happy Valley have been completed, it will be possible to feed this direct from the water tunnel and leave the conduit free for the central and western districts—an arrangement which will put the dwellers of the west in a much better position than they are now.

Regarding Kowloon, there is no prospect of a shortened supply being put into operation there. The storage is still quite large and, with the wet season upon us, there should be no shortage experienced, although consumption is steadily increasing.

A COMPLAINT.

We have received the following letter for publication:—
"Sir, I shall be most grateful if you will spare me a little space in your valuable paper in regard to the water question."

The authorities have many times had to restrict the water supply by putting the rider mains into operation, and experience should have told them that something should have been done to prevent the trouble now being experienced. By restricting the supply in the districts crowded by the working classes, the authorities have greatly erred, besides which it must be remembered that there is danger of epidemics. If the authorities do not consider the working classes, they should at least take precautions against the spread of disease. To restrict the supply, as at present, is human torture, because the poor people have not enough water to keep their bodies clean. In view of this fact, it is no use talking about sanitary and public health questions.

My humble opinion is that restriction should first be applied to the higher classes, who usually waste more water and who can employ servants to carry for them, whilst for the working classes this means extra work and hardship. It is not class prejudice which compels me to write thus, but love of humanity. Hoping that this letter will be considered by the proper authorities.

Yours etc.

FAIR PLAY.

Hongkong, May 5th, 1924.

THE PIRACY PROBLEM.

Matter Again Raised in Parliament.

THE QUESTION OF COMPENSATION.

(Reuter's Service).

London, May 5.
In the House of Commons, Mr. Kingsley Wood asked for information with regard to anti-piratical measures in Chinese waters and compensation for dead or disabled British officers.

Mr. J. H. Thomas replied that he was awaiting a report which would doubtless deal with the question of compensation and the detailed steps taken. He said British owners of vessels concerned had not been approached by the Colonial Office on the subject of their responsibility for compensation.

Viscount Curzon asked whether Mr. Thomas would be able to do anything to increase the use of wireless on ships in Chinese waters.

Mr. Thomas said the difficulty was being considered in all its widest aspects.

GERMAN ELECTION RESULTS.

SOCIALISTS HAVE SMALL MAJORITY.

The provisional final results of the elections are as follow:—

Socialists	99
German Nationals	93
Centre Party	61
Communists	59
German People's Party	44
Extreme Nationals	28
Democrats	25
Various other parties	19
Bavarian People's Party	15
Hanoverians	5

Responsible opinion in London states the view that the results of the German elections will not materially affect the experts' report. It expects that the Nationalists will support the necessary legislation in connection with the report.

No Drastic Change.

Berlin, May 5.
The Socialists remain the largest party and will undoubtedly be called upon to form a Government, which however will only be possible if the Socialists obtain the support of the Democrats and Centreists and German People's Party; but since the foregoing favour the carrying out of the experts' report, it is practically certain that the new Government will be a reversion to the old "big coalition" which, with about 234 supporters, will be opposed by about 216 German Nationals, Communists, Extreme Nationalists, and minor Parties.

SCOTTISH SINGER.

MR. HEUGHAN'S SECOND CONCERT.

William Heughan, the famous Scottish singer, gave his second performance at the Theatre Royal last evening and scored another great success. Capturing his audience at the very beginning, he was vociferously cheered after every item, and his wonderfully controlled voice was heard to advantage in some twenty songs altogether. "The Song of the Volga Boatmen," the old Cornish "Floral Dance," "Wi' a Hundred Pipes" and several operatic arias were brilliantly rendered, and the singer's wide range and flexibility were displayed almost to their full extent in the well-known "My Love is Like a Red, Red Rose." His voice is exceptionally powerful, perhaps too much so for the dimensions of the Theatre Royal.

An equal to Miss Sayer as an accompanist it would be difficult to find, and she is also a very skilful soloist.

Dave Kennedy, the humorist of the party, provided an entertaining diversion.

Mr. Heughan gives two further performances in Hongkong, to-night and to-morrow night, and music lovers should not miss these opportunities of hearing a truly great singer.

K. C. C. DRINKS.

BAR-BOY SENTENCED FOR THEFT.

A bar boy of the Kowloon Cricket Club was charged with stealing five bottles of whisky, the property of the club, before Mr. E. W. Hamilton at the Kowloon Magistracy this morning.

Sub-Inspector Spear said defendant was arrested in possession of the whisky in Austin Road at 8 a.m. yesterday. When taken to the Police Station, defendant said that he was taking the drinks to Mr. Fraser. The police rang up Mr. Fraser, who denied having ordered the drinks. When defendant was told this, he said that he wanted to present the drinks to Mr. Nicholl (who was leaving the Colony shortly) through Mr. Fraser.

The bar manager of the K.C.C. stated that he had never given defendant permission to take the drinks. Defendant mentioned that he wanted to make a present of the whisky, but he (witness) told him he had to have a chat.

Defendant told his Worship the same story as he had told the police, but after hearing the evidence the Magistrate said he had no doubt defendant intended stealing the drinks, and sentenced him to five weeks' hard labour.

His Worship (to accused before the latter left the dock):—It was lucky the police found you instead of a member of the Club!

THE GERMAN ELECTIONS.

Berlin, May 5.
Sufficient results are available to indicate roughly the
constitution of the new Reichstag. The Socialists lost between
60 and 65 seats, chiefly to the Communists, but remain the
strongest party, with about 100 deputies compared with 172 before
the elections. The German Nationals are second largest with
some ninety seats, a gain of between 20 and 25. The Communists
have 45 or 50, an increase of between 30 and 35. The relative
position of the other parties is still uncertain, as numerous results
have still to come. The extreme Nationalists will probably secure
about twenty, compared with three in the last Reichstag. The
form of the new government is not quite clear at present, but
there is evidence that the German Nationals will be the deciding
factor.

Up to six o'clock this morning out of 35 electoral districts the
results of the election in 22 were known. Hitherto 244 candidates
have been returned, including Social Democrats 58, Communists 33,
Democrats 12, Centre 39, German Peoples' Party 25, German
Nationals 42. So far thirteen Bavarian Peoples' Party candidates
have been returned and ten candidates of the Peasants' Party.
In Bavaria, Wurttemberg and Hesse about 75 per cent. of the
electorate all over the Reich had polled. Those elected include
Prince Bismarck, Count Westarp, General Ludendorff, Dr. Dernburg,
Hilferding, Marx, Wirth, Stresemann and Von Tirpitz.

The results of the elections have hitherto already made it
clear that the extreme Nationalists have in nowise done as well as
was expected and must be content to take a back seat in the new
Reichstag. Even in the extreme Nationalist stronghold of Munich
a large number of votes went to German Nationals. It is significant
that the extreme nationalists did not gain a single seat in
occupied territory. On the other hand German Nationals, of whom
the late Herr Helfferich was the leader and who are Monarchists
and reactionaries and opponents of the experts' plans, have done
extremely well and will be the second strongest party in the
Reichstag with about ninety seats compared with 67 previously.
Communists have done even better than expected and obtained
nearly sixty seats compared with fifteen previously. It is noteworthy
that they have gained particularly at the expense of the
Socialists in occupied territory and also scored heavily in parts of
Berlin and the big industrial towns in Saxony and Thuringia.
Seemingly practically every former independent Socialist has gone
over to Communism.

The German People's party led by Herr Stresemann has done
badly and is likely to lose a score of seats to the German Nationals.
The Catholic Centre party under Marx and the Democrats both
held their own and will have over sixty and about forty seats
respectively as before. No important changes are expected in
other groups. The position of the new Reichstag is very interesting
but complicated. There is a certainty that the majority of the
deputies will favour the acceptance of the expert reports but
a two thirds majority is necessary for a change in the Constitution
involved. The acceptance of the experts' reports is impossible
without the support of the German Nationals. If they remain
irreconcilable opponents to the reports, which is doubtful, there
will be no chance of the Reichstag adopting the reports and evil
days will again fall upon Germany.—Reuter.

WESLEYAN SUNDAY SCHOOL.

WANCHAI ANNIVERSARY.

The Anniversary Service of the
Wesleyan Sunday School was held
in the above Church last Sunday
evening. The scholars occupied the
platform and carried out an attractive
form of service specially
arranged for the anniversary.
The hymns were sung by the children;
the scripture lesson was read by
John Laing; Zena Bursey and
Audrey Stepl contributed a duet; and
Reggie Wood recited, "What can a
little chap do?"

Scholars of the Primary section
sang an action song "We're little,
tiny pilgrims." The Rev. John Foster,
B.A., of the Haigh Memorial
College, Fatsan, interested and delighted
the children and also their
parents with a short address on
"We know people we have
never seen." The scholars supplied
the answers and to the question:
how! The preacher then used the
answers to show "how" they knew
the Heavenly Father whom they had
never seen. Mr. A. Kirk, the
Superintendent, gave a short report
of the work of the year. The attention
of the scholars had been excellent
throughout the eight months.
The staff of teachers was adequate.
The contributions to the Missionary
fund were generous. The annual
Toy Service had provided a large
assortment of toys for Children's
Hospitals in China and at home.
The service closed with an evening
hymn specially composed for the
Anniversary under the initials A.K.
The congregation, which included
the parents of the scholars, was
delighted with the singing of the
children's Hymns and particularly
with the action song by the infants.
The collections were good.

BILLIARDS.

THE HO-KOM-TONG OUP.

Last evening at the Palace Hotel
A. J. Osmund met K. K. Leung, the
former winner with some ease.
Osmund owed 325 and Leung 250.
When Osmund reached his points
Leung had, theoretically, not scored
for he had only worked off 218 of
his handicap.
The chief breaks of the evening
were: Osmund, 23, 20, 34, 22, 30,
32, 34, 72, and 45. Leung, 21, 45
and 21.

The dance of the scholars had been
excellent throughout the eight months.

SYNCHRONOME ELECTRIC CLOCKS.

THE "SYNCHRONOME" System of Electrical Impulse Clocks

consists of

An Electrically-Driven Pendulum which operates any number of Dials. The Pendulum is combined with a simple switch so that both the time-keeping and switching functions are performed automatically and in an ideally perfect manner.

Each dial has only a "one-wheel" movement behind it, yet this simple mechanism secures uniform and accurate time-keeping without winding up or any other attention.

They are correct to within half a minute in six months. Let us quote you for complete installation.

Our Portrait is of Mr. WALTER E. WHITE, of 41, Bute-street, Chislehurst, London, England, who writes:-

"Some three years ago I had a swelling in the knee cap. One night I knocked my knee which caused a little ulcer which in time, no matter what I did, developed across the whole knee. I had one large gaping wound, and with all the care and attention that wound was open for 15 months. Being an all-round athlete, holder of many cups and prizes, I began to give up all hope of ever taking my place again among the athletes. One day one of my fellow workmen inquired how my leg was, and told me it was 'Clarke's Blood Mixture' I wanted. That day I bought a bottle, and when I had finished it I was not only surprised myself, but all my workmates could see improvement. I could bend my knee a little and that gave me encouragement, so I persevered with it and was glad to say seven bottles completely cured me. I am now as well as ever, and am still holding my own as an athlete."

Sufferers from Bad Legs, Abscesses, Ulcers, Eczema, Boils, Pimples, Eruptions, Rheumatism, Gout, should realize that toxins and ailments can be given temporary relief, but to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. 'Clarke's Blood Mixture' quickly attacks, overcomes, and expels the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

Of all Dealers—see that you get

Clarke's Blood Mixture

"Everybody's Blood Purifier."

SOMETHING TO SHOW.

Thus a scribe in the North Borneo Journal: It has been said that the grave would be a pandemonium compared with Kudat, but no one could call Kudat dull now that we have got the steam roller! The self-sacrificing fortitude with which it was surrounded by the East Coast might have warned us, but even so, after a series of tribulations, it positively moves. True that it won't go up hill. True again that it won't even roll a rough surface on the level, but given a smooth surface and a perfectly level load, preferably with a slight decline, it at once comes to life!

FAIR RENTS.

The question of the advisability of creating a Fair Rents Board is again raised in a letter which we publish elsewhere in this issue. Those who think this the best and the fairest way of dealing with the Colony's housing problem have a good deal of reason on their side. The main object of the Rents Ordinance is to prevent the undue fleecing of tenants by landlords of the type who wish to get an excessive return on their money. But, as our correspondent to-day points out, that object is not attained in the case of a very large section of occupiers. That is so because the Ordinance does not apply to "new" houses. It therefore follows that the benefits of this protective law are only enjoyed by those who are fortunate enough to remain in occupation of houses built before 1921. To the rest of the community, landlords can charge just what standard of rent they choose. In the early days of the Rents Ordinance this did not greatly matter, because the number of people affected was relatively small. As time goes on, however, with old houses being pulled down and new ones erected (plus the fact that the demand is still far in excess of the supply), more and more people are being called upon to pay high rentals. Thus the passing of time is, to a very considerable extent, nullifying the main object of the restrictive law.

The plain fact would seem to be that the abnormal situation (demand in excess of supply) has lasted much longer than was originally expected. And there would appear to be grounds for believing that we are still a far cry from normality in this regard. With the yearly renewals of the Rents Ordinance, the anomaly of houses built just before the passing of the law being limited in rental, whilst those erected just afterwards are not, becomes more pronounced. In view of these and other considerations, the question does suggest itself whether the problem would not be better solved by scrapping the existing Ordinance and replacing it by a Fair Rents Board which would take within its purview all property, old or new. Such a body could take all the factors into consideration, aiming not merely to protect the tenant

but also to give to the landlord a just return on outlay. To be of value, it would need to be a Fair Rents Board in the literal meaning of the term. We commend these thoughts to those in authority, and invite the views of others interested.

Olympic Contestants.

There will be special local interest in the Olympic games by reason of the visit to Hongkong of the Japanese representatives for these international athletic contests. We do not expect that our men can beat all, or any, of those Japanese, but they can give the visitors a close fight in each event, and incidentally, the voyagers will obtain very useful practice after boardship life of over a week. The team from Japan will provide the other contestants at the Olympiad with some of the most formidable opposition the East can offer, and we wish those athletes from the land of the rising sun a successful period. The Olympic games find the cream of the world's athletes gathered in rivalry, and when a man wins an event he can be proud indeed whilst should he lose he is not disgraced. It is a matter of controversy whether these trials of the prowess of the nations in athletics really foster a better international feeling. There is no doubt, however, that they improve the physical standard for which each country strives, and in that alone are worthy the effort. It is gratifying to find so many nationalities trying their skill in increasing numbers each time, and even if they be outclassed in forms of sport quite new to them—as in the case of Rumania in the "rugger" matches—there is disclosed a fine spirit of endeavour that cannot be too greatly encouraged.

Britain's Effort.

The former cry of whether Britain takes the Olympic contests with sufficient seriousness to make a proper effort—as do the United States, for example—is being raised again at Home. It is recalled that prior to the war the British athletes were outclassed on track and field by America's highly trained experts. At Antwerp in 1920 a small band of enthusiasts, with no official encouragement whatever, gave promise of a turn in the tide of defeat. But this year there are fresh misunderstandings, lack of the most efficient coaching, and once more a grievous shortage of funds. There appears to have been a big muddle somewhere, with absence of co-ordinated training, scrappy facilities for participants, and out-of-date implements for practice. Here and there training grounds and track coaches have been available, otherwise the athletes have had to fend for themselves. In other than track events their training has been largely a matter of chance. Yet, despite all these handicaps, some progress has been made; and at least we can be certain that Britain's athletes will enter the contests with no less enthusiasm than any of the other competitors—and that is half the battle.

\$50,000 A YEAR.

PIRATES' DEMAND FROM FERRY CO.

Having received no fewer than four threatening letters, during the past few months, from a pirate gang established in the Shek-ki district, the Kwok Hing Shek-ki Ferry Company, of Connaught Road Central, is now obtaining an additional armed escort.

The pirates are led by a man named Lam Choy, and their letters, the last of which is dated April 17th, demand that a representative of the ferry company meet the gang and settle a regular monetary grant, failing which dire threats will be carried out. The company's response has been the purchase of two launches, the Hing Wen and King Shing, which are manned by armed crews. These form a strong escort, but the pirates have merely decided to use further threats.

Their last demand has been for no less a sum than \$50,000 a year in order that the ferry boats should be free from molestation. Now the company is engaging the additional protection of an armed junk, one of the kind that do much useful work in pirate-infested waters, at just over \$1,000 a month.

The chief point about this story is the heavy expense to which the company is being put, in order to combat the designs of desperadoes who should not be suffered to continue their undisturbed residence on the mainland.

TWO-MINUTE TALKS A Daily Tonic By ROBERT POWER

REFINEMENT.

Refinement is a sadly over-rated quality. To some it is as a god to be worshipped; to others introduced into the ritual of the table.

Boau Nash and Beau Brummel—the latter the arbiter of dress and table manners, and the friend of George IV when Prince of Wales—both presumed to lay down the law as to what was the last word in refinement. Yet both died in poverty and neglect, although the City of Bath placed the statue of Nash between that of Newton and Pope. Their god was "refinement thrice refined."

To be "a la mode" was their passion and that of their followers, and those who did not conform to their conception of refinement were branded as "impossible." "Unrefined" was a sentence of condemnation. Be as refined as you like, but don't set up a cast-iron standard which hurts other people. Be elastic, ready to adapt yourself to others whose standard is not perhaps so high as yours. It is no sign of weakness, but on the contrary a mark of true nobility of character, to be ready to "condescend" to men of low estate.

Refinement is a term which indicates a standard of conduct and a perception of "good form." Let it neither be too high the great. Your real gentleman or too low, but of that instinctively does the right thing. Yet he may perhaps ruffle the feelings of the supper-sensitive by making a breach in rules and regulations regarded by them as sacred. However, after all, life will flow on just the same even though at ease.

COURT MARTIAL.

LOSS OF MEMORY PLEADED.

Surrey's Man in Trouble.

Private Thomas Edward Allum, M.M., of the East Surreys, pleaded loss of memory when charged before a District Court Martial, at Murray Barracks this morning, with breaking out of barracks when a deserter, with absconding himself from tattoo on the 17th April until 11 a.m. on the 19th, and with drunkenness.

Major P. Kashleigh, D.S.O., Royal Garrison Artillery, president and the other members of the Court were Captain D. S. Hey, 2/4 Bombay Grenadiers, and Lieut. Finch White, 1st East Surrey Regiment.

At the outset, the accused asked that the hearing might be adjourned while he obtained medical evidence from England as to his past medical history.

The President:—The Medical Officer has sent me a note in which he says you are quite fit to be tried by court-martial.

Accused:—He tested my heart and felt my pulse: that was not what I wanted.

The Court ruled that the case should go on.

Lance Corporal Champion said he called the defaulter's roll at Wellington Barracks at 9 p.m. on April 17th. Accused was absent and witness failed to find him although he searched Victoria Barracks.

Bombardier Wood R.G.A. said he was sleeping in No. 2, room, B block Whitfield Barracks, when he was aroused at 2 a.m. by accused coming into the room. He was very drunk and caused a disturbance by falling over the utensils. He placed accused, who was minus his coat cap and web belt under close arrest.

Accused, giving evidence on his own behalf, said that he went into the wet canteen at Victoria Barracks at 8 p.m. on the 17th April. He ordered a pint of beer and sat in the billiard room. From that time until about 2 a.m. on the 19th he had no recollection of where he went or what he did. He did not remember leaving the canteen. He woke from his sleep in one of the lower rooms at Whitfield Barracks and when he found where he was he went upstairs to rooms which were occupied to see if he could find out how he came to be there. In walking across the room he tripped over some bath utensils which had been laid out for inspection, and woke up the bombardier. He explained that he did not know how he got into Whitfield Barracks but he was placed in the detention cell as he thought for the night. He did not know he was accused of drunkenness; they would have taken his boots and puttees off but they did not do so.

AGED AMERICAN.

JAILED FOR ROBBING FRIEND.

Frank Eagen, an American, was sent to gaol for six weeks on admission to Mr. R. E. Lindell, at the Magistracy this morning, of the theft of a pocket book containing \$24 and two one-dollar Singapore bills belonging to George Oatway, an unemployed seaman at the Ballors' Home.

Eagen, who is a ship's cook, giving his age as 61, applied for clemency on the ground of his old age, stating also that he had been drinking that night and he was not in full possession of his senses. He had never done such a thing before, and did not know what possessed him to take the pocket book.

Detective Sub-Inspector Shaf-tain said that the two men had been drinking and they had another bottle of whisky on adjournment to their respective bedrooms.

At four o'clock in the morning, Eagen left his room to go into the complainant's room, where he went through the latter's coat-pockets and extracted the book. Eagen was not seen again until Sunday when he was found in a Japanese restaurant at Wanchai. There was nothing found on him, except five one-dollar bills which were taken from his mouth.

His Worship, after hearing the plea of the defendant, remarked that Eagen had robbed a man who was a friend to him. In thirty-six hours he had made away with something like \$200. A sentence of six weeks' hard labour would be imposed.

Accused went on to say that he was discharged from the R.A.F. in December, 1918, as being medically unfit for further service. During the war he was wounded three times, once in the head, and in April, 1917, he was brought down in aerial combat and had a severe crash. For his wounds and crash he was granted a disablement pension of 60 per cent. He re-enlisted in August, 1919, but was again discharged in the following February. Owing to domestic troubles, he was practically forced to again enlist, and in September, 1922, he was sent with a draft from England to Cairo. He was later sent to Khartoum and then to Hongkong. Since his discharge from the R.A.F. he had been subject to fits of depression and he occasionally suffered from temporary loss of memory. During the past eight months the lapses had been frequent. His trouble was due to his wounds and the effect of his crash.

The Court's decision will be promulgated in due course.

ARMS SEIZED.

ON CANTON RIVER STEAMER.

Mention was made, before Mr. R. E. Lindsell at the Police Court this morning, of a big arms seizure made on board the Canton steamer Kinsan before its departure from the Hongkong wharf yesterday morning. Revenue Officers searching the coal bunkers found a sack containing seven 6-chambered revolvers and 2,024 rounds of ammunition.

In consequence of the seizure, a fireman was charged before the Court for possession of these arms, whilst a warrant is also out for the apprehension of another fireman who has absconded.

Hearing of the case meanwhile was held over for a week on the application of Detective Inspector Pincott.

CONSTRUCTION CO. SUE.

FOREMAN CLAIMS DAMAGES.

The Hongkong Engineering and Construction Co., Ltd., were the defendants in an action which came before the Painsie Judge (Mr. A. Dyer Ball) in the Summary Court this morning. Ho Man-hang, of 10, Burrows Street, formerly employed by the Company as foreman, sued for \$200, being \$100 due as salary for the month of March, and \$100 in lieu of notice.

Mr. C. A. S. Russ, appeared for the plaintiff, and Mr. H. C. Macnamara appeared to defend.

In opening the case, Mr. Russ stated that plaintiff was employed as a foreman in December last at a salary of \$80 for the first month and \$100 per month following if his services were found to be satisfactory. The salary was, accordingly, increased and he continued to be foreman over about 200 men. One day in March he was summarily dismissed without notice. It was on the defendants to prove that they were justified in their action.

Mr. Macnamara, who admitted the onus of proof, said the Company relied for justification upon the plaintiff's negligence. It had been laid down by Halsbury that "there is good ground for the dismissal of a servant if he is habitually neglectful in respect of the duties for which he is engaged, but not for any isolated instance of neglect unless attended by serious consequences." It was on the latter part of that paragraph that the defendants were relying. Plaintiff was a foreman in charge of over 130 people working on a Government contract in connection with Kowloon water works. The contract contained penalty clauses and it was essential that the work should be completed before the rainy season set in. Part of plaintiff's duties was to keep the workmen at their work, but it would be proved that one of the Company's Inspectors visited the site during working hours and found plaintiff asleep on a bed in a matchbox—if not asleep, then certainly lying down. The work was not being done with proper dispatch. It would be proved that plaintiff had previously been warned about not keeping the men busy, and that his neglect of duty had caused material damage to the Company.

Mr. Cutting, the Company's engineer, went into the box. He said on the day in question at two o'clock he could not find the plaintiff on the works. He saw a boy in front of a matchbox and on seeing witness he ran inside. Witness quickly followed and saw plaintiff getting off a bed. The time keeper was with him. Plaintiff was rubbing his eyes and looked as if he had been to sleep.

Cross-examined, witness said the man was not asleep, nor was the time keeper.

Mr. Russ read from a letter from the Company discharging the time keeper, in which it was said that Mr. Cutting had reported the man for being asleep. Witness admitted so reporting him.

Mr. Russ:—You reported both men for being asleep and they were discharged for being asleep. Do you consider it fair to report a man for being asleep when he was not?

Witness:—That does not come into it. I discharged him for neglecting his duty.

Mr. Russ submitted that he had no case to answer. It was all very nebulous. The man was found in the shed, but there was no evidence to show that he had orders not to go to the shed. There was no evidence that the employer was damaged in any way and, also, the man was not asleep.

The case was then adjourned for Mr. Macnamara's reply.

PEAK TRAM CASE.

SOLICITOR PROTESTS AGAINST "JUDGMENT".

The case in which a ticket collector named Li Sui, formerly in the employ of the Peak Tramway Company, is seeking to recover \$63 from the Company in lieu of a month's wages, on the grounds of wrongful dismissal, was again before the Painsie Judge (Mr. A. Dyer Ball) this morning.

Mr. F. C. Macnamara appeared for the Company and Mr. M. K. Lo for the defendant.

His Honour said he had considered the point as to whether the Company was justified in dismissing the plaintiff without notice and without pay in lieu of notice. He found that the plaintiff did not report himself for duty on February 28th, but that he sent a messenger to Mr. Scott, the Superintendent, explaining that he could not turn up. The messenger interpreted Mr. Scott as saying "all right" and he, the Painsie Judge, thought the plaintiff was justified in assuming he thus had permission to stay away. Plaintiff turned up on March 2nd. Defendants had not discharged their onus of proving that they were justified in dismissing the plaintiff without notice, and judgment would be given for plaintiff accordingly.

Mr. Macnamara protested against judgment having been given before he had been called upon to reply to Mr. Lo's arguments. He said he had assumed, until then, that his Lordship was in his favour. He had never waived his right of reply and should have been given an opportunity.

His Lordship expressed regret of he had deprived Mr. Macnamara of any right. He was under the impression that Mr. Macnamara did not wish to make a reply. He would give Mr. Macnamara any opportunity he desired.

Mr. Macnamara:—It places me in a very difficult position after you have made up your mind about it.

His Lordship:—There is no reason why I should not be convinced by your arguments.

Mr. Lo said he had understood all along that arguments were closed. All the material facts and points had been given to the Court, and he did not know that Mr. Macnamara wished to address the Court further.

Mr. Macnamara maintained that he had never waived his right to reply, neither had he given any indication which could lead anyone to suppose that he wished to.

His Lordship said that a good deal of argument took place at the hearing, but admitted that Mr. Macnamara had not, formally, been asked whether he wished to reply. He (his Lordship) was quite willing that Mr. Macnamara should be given a chance to address the Court, if he so wished. The "judgment" he had just given could be taken as an expression of his opinion so far as the case had already gone. He was quite open to be convinced by any argument that might be put to him.

The case was accordingly adjourned in order to give Mr. Macnamara an opportunity to address the Court.

LAWN TENNIS.

JAPANESE OLYMPIC PLAYER ILL.

Local tennis enthusiasts were keenly looking forward to a match which had been arranged for this evening on the H.K.C.C. ground in which Ohta (a Japanese Olympic player) and T. Honda (the local champion) were to meet R. E. Worthington and Ng Sze-kwong. Unhappily, however, the fixture has been cancelled, owing to the illness of Ohta, who is suffering from some internal trouble and has been removed to hospital here in order to undergo an operation.

THE TOURNAMENT.

Although the prizes have been presented for the finished events in the Hongkong C. C. tournament, there are still one or two ties to be played off. Last evening, in the semi-final of the Club Championship, Forster beat Henderson by 6-1, 1-6, 6-4, 6-1 and will now meet Worthington in the final. The winner will play S. E. Green, the holder.

The Mixed Doubles event has yet to be finished, but no definite arrangements have yet been made.

STRUCK OUT.

COURT HAS NO JURISDICTION.

Judgment was given by the Painsie Judge (Mr. A. Dyer Ball) in the Summary Court this morning, in the case in which Mrs. Shu Wai-lung, of Hollywood Road, sued Mr. J. H. Bath, of Messrs. Percy Smith, Seith and Fleming, who is the Receiver appointed by the Court for the estate of Wei A-lung deceased, for the establishment of her title as lessee of the first floor of No. 55, Hollywood Road, and to recover the rents thereof.

It will be remembered that at the hearing, Mr. W. B. Hind, who appeared for the defendant, raised the question of the Summary Court's jurisdiction, to try the case, long legal arguments ensuing. Mr. Armstrong of Messrs. Deacons, appeared for the plaintiff.

This morning, his Honour said that he had very carefully considered the arguments regarding the Court's jurisdiction and he had come to the conclusion that the Court had no jurisdiction over a claim of that nature. The Court was, therefore, not called upon to give a decision, and the case would be struck out.

FERRY TICKET DISPUTE.

MAGISTRATE GIVES UP PUZZLE.

A Chinese doctor was charged before Mr. E. W. Hamilton, at the Kowloon Magistracy this morning, with attempting to travel on the Yau-mat ferry without paying the legal fare. Mr. F. E. Nash prosecuted on behalf of the Yau-mat Ferry Company.

A ticket collector stated that at 3 p.m. yesterday defendant attempted to travel by the ferry with a false ticket.

Defendant said that the ticket was given to him by a woman, whose daughter he had cured. He could not read and therefore did not know that the tickets of the company could only be used on the day of issue.

The woman was called and she stated that she did give defendant the ticket, but she had got it from her son.

The small boy said that a school mate gave it to him.

His Worship said that he could not go further down the chain and therefore discharged the defendant.

CORRESPONDENCE.

(To the Editor of the "Hongkong Telegraph.")

The Rent Problem.

Sir,—Knowing that the Telegraph has always championed the cause of Hongkong's distressed tenants, I should thank you to take up again the question of a Fair Rents Board for the Colony.

It is so many years now since the Rents Ordinance was first introduced, and so many new houses have been built, that gradually most of the populace are having to pay extortionate rents. Only those who live in old houses are getting the benefit of the Rents Ordinance. Would not a Fair Rents Board be the best, after all?

Sincerely yours,

TENANT.
Hongkong, May 5th, 1924.

D'OISY REACHES CALCUTTA.

France Thanks Britain for Assistance.

Paris, May 5. It is officially stated that D'Oisy has covered the distance from Agra to Calcutta in 399 minutes. He experienced a temperature of 108 degrees.

The Under Secretary for the Air has conveyed the Air Force's thanks to the British Air Ministry for the valuable help given to D'Oisy during the whole flight across British India.—*Reuter*.

Calcutta, May 5. D'Oisy arrived at Dum Dum aerodrome at one o'clock this afternoon, having flown approximately 750 miles, from Agra to Calcutta, in 6½ hours. He was enthusiastically welcomed by the French colony.

He is likely to remain in Calcutta from two to three days, owing to the necessity of making slight repairs to the wings of his machine.—*Reuter's American Service*.

Landing fields, which are being illuminated with a revolving searchlight visible from a hundred miles, are placed every two hundred and fifty miles.

The trip is to be covered in three stages, occupying thirty hours, compared with the eighty-seven hours by train.—*Reuter's American Service*.

INDIANS IN AMERICA.

The Ban on Citizenship.

London, May 5. In the House of Commons, replying to Mr. Baker, Mr. Richards said the United States Government's refusal to naturalise Indians was due to the Supreme Court's ruling that Indians are ineligible for United States citizenship.

His Majesty's Government had made representations to the United States with a view to alleviating the hardships resulting from this ruling. The Government of India and Lord Olivier had been corresponding on the matter, and the Government of India had expressed appreciation of the Home Government's action.—*Reuter*.

COALMINERS' WAGES.

Suggested Appeal to Government.

London, May 5. Mr. Cook, secretary of the Miners' Federation, speaking at Pontypool referred to the court of enquiry into miners wages, which had just concluded. He said unless the court made some tangible recommendation the enquiry would have been a waste of time.

He had arranged to meet the coal-owners on May 14th, if the men's proposals be not satisfied. There would be only two alternatives, a strike or an appeal to Government, which had the power to grant their just demands.—*Reuter*.

HOME CRICKET.

South Africans at Leicester.

London, May 5. At the Oval, Surrey beat Glamorgan by an innings and twenty-four runs. For Surrey, Poach knocked out 92.

At Leicester, in the match between Leicestershire and the South Africans, the latter scored 153 (Catorall 44 and Taylor, 60, not out). Asstall took 5 for 70 and Goary 4 for 38.

Leicester, replied with 90. Blanckenberg taking 5 for 23 and Carter 3 for 8.

South Africa going in again scored ten runs for the loss of two wickets, when stumps were drawn.—*Reuter*.

GERMANY ANGERS RUSSIA.

Another Soviet Note Presented.

Berlin, May 5. The Russian Ambassador Krestinski is leaving for Moscow to-night in consequence of the police raid on the offices of the Russian Trade Delegation, which will remain closed until the German Government has given satisfaction.

Another Russian Note with reference to the affair was presented at the Foreign Office to-day.—*Reuter*.

BOUND FOR JERUSALEM.

Adventurous Voyage in Small Boat.

Manila, May 6. Ira Sparks set sail from Mindanao for Singapore on March 25th, according to a constabulary report.—*Reuter*.

It is to be feared that disaster may have overtaken this traveller, judging by the time that has passed since he set out, and the weather conditions. Sparks is a religious crank who left America last year on a unique journey to the Holy Land, commencing by utilising a packing case—voyaging as baggage, apparently—and concluding with the use of a small boat of his own construction.

IRISH BOUNDARY COMMISSION.

Delegates from North and South.

London, May 5. In the House of Commons, Mr. Thomas announced that following the appointment of a Free State representative to the Irish Boundary Commission, His Majesty's Government had requested the North Ireland Government to make a similar appointment. Steps were being taken to appoint a chairman.

Mr. John McNeill is the Free State commissioner on the boundary question.—*Reuter*.

HOUSE OF COMMONS.

Evictions and Duties.

London, May 5. The House of Commons has passed the third reading of the Simon's Evictions Bill, the Liberal measure substituting the Labour Bill.

Mr. Baldwin gave notice of a motion that it was inexpedient to remove the McKenna duties amidst the present distress.—*Reuter*.

THE LAST SEEN OF MAJOR MARTIN.

Covered A Hundred Miles in Seven Hours.

Falka Pass, Alaska, May 5. Major Martin is reported to have been seen a hundred miles west of Chignik seven hours after his departure from Chignik on April 30th.—*Reuter*.
